

## ArubaOS Supported Hardware and Software Versions

Here you can find timelines for Aruba wireless products at the end of their lives. This Aruba End of Life (EOL) software support matrix indicates the timeline for the various hardware platforms when they reach End of Sale (EOS), End of Support, and End of Support Life (EOSL).

ArubaOS runs on controllers or gateways managed by Aruba Central.

### [ArubaOS Currently Shipping Hardware](#)

List of currently shipping hardware and version of OS supported

### [ArubaOS End of Sale \(EOS\) Hardware](#)

List of EOS hardware and version of OS supported

### [ArubaOS End of Support Life \(EOSL\) Hardware](#)

List of hardware that has reached it's End of Support Life (EoSL) that supports up to 8.6

### [ArubaOS 8.6 Maximum End of Support Life \(EOSL\) Hardware](#)

List of hardware that has reached it's End of Support Life (EOSL) that supports up to 8.6

Instant is the version of ArubaOS that run on APs that do not require a controller.

### [Instant Currently Shipping Hardware](#)

List of currently shipping hardware and version of OS supported

### [Instant End of Sale \(EOS\) Hardware](#)

List of EOS hardware and version of OS supported

### [InstantOS End of Support Life \(EOSL\) Hardware](#)

List of hardware that has reached it's End of Support Life (EOSL)

Find timelines for products at the end of their lives and learn more about our End of life policy, so you can get the communication and support you need for your hardware and software products.
